

**EJAL SKIN BOOSTER** is a cream formulated to help counteract the signs of aging.

Rich in hyaluronic acid of different molecular weights (MATRIX SYSTEM HA) acts on skin structures creating a barrier against external factors helping to accelerate skin regeneration processes, preventing aging. Ideal as a post-treatment cream with hyaluronic acid (Ejal40) after aesthetic medicine treatments, after sun exposure, its texture offers immediate comfort.

EJAL SKIN BOOSTER can be used by those who need instant regeneration.

The ingredients contained are also effective thanks to rapid absorption.

Apply morning and / or evening to face and neck.

Suitable for all skin types

**EJAL EYES CONTOUR** is an innovative and multifunctional serum

for eye area with lifting effect. Makes the skin around the eyes brighter and fresher. Contains hyaluronic acid with different concentrations and different molecular weights (MATRIX SYSTEM-HA) which helps reduce wrinkles, signs of fatigue and swelling.

Suitable for all skin types.
